

WHAT SOME WOMEN THINK OF A EUGENIC LAW

That women as well as men should be examined if a eugenic law is passed was the consensus of opinion at the meeting of the Eugenics Educational society at the City club last night.

Beyond the one point upon which all agreed, each of the eugenists had a separate idea of the system. Among the views expressed were:

Dr. Anna Blount—I am for a strict marriage law, providing for examinations of bride and groom fifteen days before the wedding, the examining physician to get \$10 for his work.

Dr. Mary Neff—It isn't so much a law that is needed as education of the masses. The boys of the colleges are the ones that are diseased. Fewer men of thirty-five and over are diseased than college boys. We want to begin to save the boy for whom the tentacles are out as well as for the girl.

Miss Jane Addams said: "To be fair, the eugenics law must be made to include women as well as men. Besides, one mustn't think that all disease is from wrongdoing. Constitutional weakness would disqualify for marriage, according to my idea of the eugenics question."

DEPUTIES HELD IN NEW JERSEY STRIKE KILLINGS

Roosevelt, N. J., Jan. 23.—28 deputy sheriffs who figured in the fertilizer strike riot in which two strikers were killed last Tuesday are in the county jail at New Brunswick today, charged with murder in the first degree.

Armed guards still patrol the company's plant today. Officials of the company have refused admittance even to federal agents, it is charged by Patrick F. Gill and Daniel T. O'Regan, special investigators appointed by the Federal Industrial Relations Committee.

Engineers, oilers and firemen employed at the Leibig, Armour and

Williams and Clark plants quit work today. They told officials that some time during the night letters threatening them with death if they continued at work were left at their homes. In some instances, they said, the writer of the letters threatened to dynamite their homes.

New York, Jan. 23.—Chairman Walsh of the Federal industrial relations committee refused today to comment on the reported defiance by guards at the Leibig plant, of Roosevelt, N. J., of his investigators, Gill and O'Regan. He said Gill would make formal report of his work, and possibly of this particular incident on Tuesday.

HOYNE'S TAX ACTIVITIES NET COIN FOR COOK COUNTY

The success of Hoyne's tax fight has been proved in dollars and cents. The earnest manner in which his office has gone after the dodgers brought results without litigation.

He has issued a statement giving the following figures:

"Our collections on the 1913 delinquent personal property taxes amount to \$108,000, and we have been collecting for less than a month," said Henry A. Berger, assistant state's attorney. "The year's collections will total more than \$1,000,000."

"The records show that in no past year did the old county attorneys ever collect more than \$60,000. The amounts of their collections ranged from \$40,000 to \$60,000."

"The \$108,000 brought into the treasury thus far came without filing a single suit. The people are willing enough to pay when they realize the county is in earnest in its threats to force payments as provided by the revenue laws."

Washington.—Sec'y of Navy Daniels ordered cruiser Des Moines and gunboat Nashville to proceed to Haitian waters. Rapid progress of revolution in Haiti.
